

IT - Network Specialist and IT - Computer Support Specialist

DUAL DEGREE OPTION

80 credits, earning two Associate of Applied Science degrees

For more information:

wctc.edu/network-spec and wctc.edu/computer-support

Three years, two careers!

Students who are interested in taking both the IT - Network Specialist and IT - Computer Support Specialist programs can do so in just three years through this unique dual offering.

Dual degree programs maximize synergies between programs by sharing resources like faculty expertise, facilities and community programs - saving you both time and money.

Students gain advanced skills in both industries while taking advantage of an abbreviated schedule, a diverse environment, and enhanced opportunities for collaboration and networking.

This dual degree option totals 80 credits, and it is structured to be completed over three years. If the programs were taken separately, the total number of credits would equal 122, which is a 42-credit difference.

- Prepare for jobs such as:
 - Network Specialist: network administrator, network engineer, IT technician, systems administrator
 - Computer Support Specialist: computer Support Specialist, IT service desk analyst, support technician, software trainer, end user support specialist
- Complete real-world business challenges in state-of-the-art labs that use the latest Cisco routers and switches and other current business-class hardware and software.
- Have the opportunity to obtain the Google IT Support Professional certification.
- Leverage current industry-standard software solutions, including Microsoft Server, Microsoft Office, Apple IOS, Office 365 and Azure, Scrum Framework and ServiceNow.

To enroll, contact the WCTC admissions at 262.691.5200
