Undergraduate Credit Articulation Agreement
Waukesha County Technical College
And
Marquette University

Waukesha County Technical College and Marquette University agree to a cooperative relationship through this agreement to better serve students and facilitate the transfer process. This agreement provides a structure through which students at Waukesha County Technical College can transfer their coursework to Marquette University for completion of a bachelor's degree.

1. Academic Requirements

- a. Students must have received a high school diploma or equivalent and complete the outlined Waukesha County Technical College coursework attached in the appendix.
- b. Completion of the attached coursework is not a guarantee of admission. Admission to Marquette University is holistic, considering all aspects of the student's academic and non-academic history, with students maintaining a cumulative grade point average of 3.0 on a 4.0 scale in all coursework taken at Waukesha County Technical College, with no grades earned of less than C being the best candidates for admission.
- c. Students are encouraged to enroll in their Marquette University degree program within three years of initial enrollment in the agreement. Ideally, students will enroll in the agreement prior to their first semester at Waukesha County Technical College.
- d. International students must demonstrate English language proficiency as part of the final admission process. Examples of accepted evidence are found in the Marquette international admissions process.
<https://www.marquette.edu/oie/prospective-students/undergraduate-students.php>

2. Admission Requirements

- a. Students must authorize Waukesha County Technical College and Marquette University to disclose their educational records, including but not limited to, transcripts, admission, and advising information as appropriate. By signing the participation form, students agree to allow the two institutions to share information and to allow the student to reverse transfer credits. Students may also receive communication from Marquette University informing them of presentations, workshops, activities, student events, and visits.

advertising for the agreement. Marquette will advertise this agreement on their website and to prospective students.

- e. This agreement is effective for three years with curricular updates made, if necessary, on an annual basis. Any proposed changes to the agreement will be reviewed and agreed to collaboratively by Waukesha County Technical College and Marquette University.
- f. Should the program be dissolved, students who have not yet secured an offer of admission to Marquette University will be considered for admission according to regular university transfer policy and deadlines.

4. Requirements at Marquette University

- a. Students must maintain good academic and university standing as described in the Undergraduate Bulletin.
- b. Students must satisfactorily earn a minimum of 45 of the total credits for the degree with Marquette University coursework and fulfil all degree requirements as specified in the Undergraduate Bulletin.
- c. Marquette University reserves the right to discontinue majors and courses. Should a major or course be eliminated, students who are matriculated at MU at time of discontinuation will be provided the opportunity to finish the program for which they have enrolled under this articulation agreement, providing they are continuously enrolled in the academic program.
