**Undergraduate Credit Articulation Agreement  
Waukesha County Technical College  
And  
Marquette University**

---

Waukesha County Technical College and Marquette University agree to a cooperative relationship through this agreement to better serve students and facilitate the transfer process. This agreement provides a structure through which students at Waukesha County Technical College can transfer their coursework to Marquette University for completion of a bachelor's degree.

**1. Academic Requirements**

- a. Students must have received a high school diploma or equivalent and complete the outlined Waukesha County Technical College coursework attached in the appendix.
- b. Completion of the attached coursework is not a guarantee of admission. Admission to Marquette University is holistic, considering all aspects of the student's academic and non-academic history, with students maintaining a cumulative grade point average of 3.0 on a 4.0 scale in all coursework taken at Waukesha County Technical College, with no grades earned of less than C being the best candidates for admission.
- c. Students are encouraged to enroll in their Marquette University degree program within three years of initial enrollment in the agreement. Ideally, students will enroll in the agreement prior to or during their first semester at Waukesha County Technical College.
- d. International students must demonstrate English language proficiency as part of the final admission process. Examples of accepted evidence are found in the Marquette international admissions process.  
<https://www.marquette.edu/oie/prospective-students/undergraduate-students.php>

**2. Admission Requirements**

- a. Students must authorize Waukesha County Technical College and Marquette University to disclose their educational records, including but not limited to, transcripts, admission, and advising information as appropriate. By signing the participation form, students agree to allow the two institutions to share information and to allow the student to reverse transfer credits. Students may also receive communication from Marquette University informing them of presentations, workshops, activities, student events, and visits.

- b. Students must be in good academic and disciplinary standing at Waukesha County Technical College at the time of transfer. Students must adhere to each institution's standard policies and procedures including but not limited to those dealing with admission, enrollment in courses, transfer credits, financial aid, student conduct and discipline, academic probation, dismissal, and reentry.
- c. Marquette University will provide academic advisement to students to discuss admission, program requirements, and transfer credit policies. The attached curriculum guide lists the transfer level a student would be placed into upon transfer. The transfer level identifies which Marquette Core Curriculum courses are left to be completed at MU if not already satisfied by transfer credit. Transfer level is subject to change for students that do not complete the full Associate of Applied Science Degree.
- d. This agreement applies to Marquette University programs listed in the Appendixes. Note, not all undergraduate programs have an articulation option. Students interested in a Marquette University program not listed in the Appendix should follow general transfer admission instructions.
- e. Courses accepted for transfer credit must follow Marquette University's Transfer Course/Credit Policy as stated in the Undergraduate Bulletin.
- f. Students may also qualify for Marquette University scholarships, including transfer specific scholarships viewable at [www.marquette.edu/transfer](http://www.marquette.edu/transfer).

### 3. Other Terms

- a. All students participating in the agreement must apply to Marquette University using the Common Application or the Marquette University Admission Application by the Marquette University application deadline for the desired entry term.
- b. Failure to meet the requirements above does not preclude the student from applying and being considered for admission to Marquette University using the traditional admission process.
- c. Waukesha County Technical College will publish a version of this document and related forms on its website so that the details of this agreement are available to students interested in participating in the program. Marquette University and Waukesha County Technical College will have the right to review and approve all advertising for the agreement. Marquette will advertise this agreement on its website and to prospective students.

**WAUKESHA  
COUNTY TECHNICAL  
COLLEGE**

**MARQUETTE  
UNIVERSITY**

**Be The Difference.**

- d. This agreement is effective for three years with curricular updates made, if necessary, on an annual basis. Any proposed changes to the agreement will be reviewed and agreed to collaboratively by Waukesha County Technical College and Marquette University.
- e. Should this articulation agreement be dissolved, students who have not yet secured an offer of admission to Marquette University will be considered for admission according to regular university transfer policy and deadlines.

**4. Requirements at Marquette University**

- a. Students must maintain good academic and university standing as described in the Undergraduate Bulletin <https://bulletin.marquette.edu/undergrad/>
- b. Students must satisfactorily earn a minimum of 60 of the total credits for the degree with Marquette University coursework and fulfil all degree requirements as specified in the Undergraduate Bulletin.
- c. Marquette University reserves the right to discontinue majors and courses. Should a major or course be eliminated, students who are matriculated at MU at time of discontinuation will be provided the opportunity to finish the program for which they have enrolled under this articulation agreement, providing they are continuously enrolled in the academic program.
