A.A.S. Human Resources > B.A. Sociology: Nonprofit Leadership

The Sociology Major prepares students in strategies for building stronger communities. Many neighborhoods and communities are struggling to be safe, productive, pleasant places to live and work. Mount Mary's Sociology Program provides students with knowledge and skills to critically analyze the social structures, institutions, and cultural attributes that make a community successful. We study how communities develop in a positive way; we visit community agencies to see what works and what needs improvement; and we have students experience building strong communities. We want our students to be effective leaders of organizations that are characterized by diversity. The Sociology program helps students understand how social systems work and affect lives of individuals and families locally and around the world. Students learn to understand social issues and how to work toward social justice.
