

Communications Challenge

“Three Blind Mice”

Objective:

This event allows a team of four to demonstrate effective communication during a stressful situation. The goal of the event is to use a communicator to effectively communicate directions to their crew, so that the scoring ball is moved through the maze and into the hole.

Requirements:

- The maze is approximately 48" wide, 96" long, and 6" tall, weighing about 50lbs total.
- Each Post can enter a maximum of three (3) teams consisting of four (4) cadets/explorers.
- No cadet/explorer can participate in this event twice.
- Structural Firefighting gloves.
- NFPA Full length fire hood.

Rules:

This event has a 5-minute time limit. Each member of the team will start in their designated places. Each member is to stand next to their rope handle. All members are to have structural fire gloves on their hands and hood on their head. Three members will have hoods on backwards “obscuring their vision.” The fourth member (The Communicator) will not have hood up but will have gloves on. The communicator will give verbal directions to the group.

Continued on next page...

Each team will begin with the maze resting upon a set of saw-horses. At the word “GO” the time starts. The time will end when the scoring ball goes through the hole. The communicator is the only person to talk. Commands can be given to “lift” or “rest”. All members are not allowed to take hands off rope until completion of activity. The maze can be reset on the saw horses during the event.

Penalties:

- Any member of the team lets go of the rope handle during event (10 second penalty for each infraction).
- Any member other than the communicator speaks during timed event (10 second penalty for each infraction).

Disqualifications:

- Any member of the team touches the maze or the ball.
- Any act considered dangerous and likely to result in injury.
